R. Dis. No. 1271 of 34/Edn. NOTIFICATION.

Under sanction of His Highness the Maha Raja, it is hereby notified that the following Rules are passed, under Regulation II of 1098, regulating the destruction of records in the Education Department.

Huzur Cutcherry, (By order) N. KUNJAN PILLAI,
Trivandrum, 20th August 1934. *Chief Secretary to Government.*

RULES.

1. These rules supersede the previous rules and standing orders relating to the Destruction of Records in the Department.

2. Schedule A hereto annexed shows the names of the records to be kept permanently and Schedule B contains the names of the records together with the period for which they are to be preserved.

3. Records in Departmental Offices and institutions may be destroyed after the periods specified in Schedule B

4. The Destruction of Records shall be done in the presence of responsible officers as specified below :—

Directors Office ...	Personal Assistant.
Offices of the Inspecting Officers ...	Inspectors or Inspectress.
Offices of the Assistant Inspecting Officers	Assistant Inspectors or Assistant Inspectresses.
Colleges	Principals.
Hostels	Wardens.
Schools	Headmasters.
Educational Bureau ...	Officer in charge.
Text Book Committees ...	Secretary.

5. A register as per form subjoined shall be maintained in each Office or Institution for the records destroyed under the rules from time to time.

6. Records to be destroyed shall be burnt.

7. Under no circumstances shall any record be sold as waste paper or utilised otherwise.

8. No record relating to account matters shall be destroyed before the period of complete account years prescribed by the Account Code and without a certificate obtained from the Account Officer to the effect that there are no unsettled claims or objections bearing on such record.

9. No paper or record of any kind relating to the subject matter of an agreement of which one of the contracting parties is the Dewan shall be destroyed except with the sanction of Government. No papers or records relating to agreements of which one of the contracting parties is the Director of Public Instruction or any officer subordinate to him shall be destroyed until the full period of limitation prescribed by law has expired after the last day of the contract period or the date of last transaction, whichever is later.

10. A list of records that may be destroyed under these rules shall be prepared in each office or institution and submitted to the Director of Public Instruction before the last day of Chingom in each year. The list should be accompanied by a certificate in the following form:—

"Certified that the records items Nos. have been examined by me. They do not contain papers of any value which will make their further retention necessary."

11. The Director shall after examination of the list sanction the destruction of records. He may at his discretion direct the retention for a longer period or permanently of any record which he may consider likely to be useful in the future.

12. A list of records sanctioned to be destroyed shall be published in the Government Gazette and the records shall be actually destroyed on the expiry of three months after the date of publication.

13. On the expiry of the period referred to under clause 12 above, the officer responsible for the destruction of records shall submit to the Director a certificate signed by him stating that the records as per the sanctioned list have been so destroyed in his presence.

14. A list of the records destroyed shall be immediately entered in the Register prescribed for the purpose.

15 The Director shall, if found necessary, make any change in the rules herein contained subject to the sanction of Government

NOTICE

QUILON ELECTRIC SUPPLY.

The supply of electric energy at Quilon is expected to be initiated by about the middle of September 1934. The tariffs of rates sanctioned for the Trivandrum Electric Supply will be applicable to the Quilon Electric Supply also. Details regarding tariff, house-wiring, service connections, &c., are hereby published for the information of the public.

Electrical Engineer's Office,
Trivandrum, 23rd August 1934.

K. P. P. MENON,
Electrical Engineer to Government.

GOVERNMENT OF TRAVANCORE.

Electricity Department.

QUILON ELECTRIC SUPPLY.

(I) Applications for the supply of electric energy should be made in the form prescribed in Appendix (VII) and should be accompanied by a remittance of Bh. Rs. 5 for testing and connecting up. Overhead service not exceeding 50 feet in length will be laid by the Department free of cost to the consumer. Longer distances or services requiring underground cables will be charged for at the tariff rates given in Appendix III. Each applicant will have to sign a stamped agreement, in the form prescribed in Appendix VIII and shall deposit an amount corresponding to the cost of two months' probable consumption of energy as estimated by the Superintendent, Quilon Electric Supply. No premises will be connected before this agreement is signed and the requisite amount deposited. Supply bills are payable monthly and the Department will be at liberty to apply any part of the deposit towards unpaid bills and to call upon the consumer to replenish the deposit to its original amount, failing which the supply is liable to be cut off.

(ii) Information regarding various types of house wiring the rules to be observed in the case of motive power installations and other information regarding charges for energy, tariff rates for service lines, etc., is given in Appendices I-VIII.

22nd August 1934.

K. P. PADMANABHA MENON,
Electrical Engineer.

APPENDIX I.

INFORMATION REGARDING HOUSE-WIRING.

The following systems of house wiring are approved by the Electricity Department :—

1. *Metal Conduit :* Where the insulated wires are carried in screwed or unscrewed steel conduits or insulated zinc conduits. These conduits may either be buried or fitted in to the walls by approved saddles.
2. Wiring with lead covered wires.
3. Wiring with tough rubber covered wires.
4. Wood casing wherein the wires are carried in teak wood casing.
5. Open wiring, wherein the insulated wires are carried on porcelain cleats.

Where metal conduits or lead covered system are employed, it is to be particularly observed that the metal conduits or the lead covering should be made electrically continuous and connected to earth in an approved manner. The approximate cost of wiring a house on the above system is as follows:—

1. Conduit system Bh. Rs. 20 to 30 per point.
2. Lead wiring ,, 10 to 15 ,,
3. Tough Rubber covering 10 to 15 ,,
4. Wood casing Bh. Rs. 10 to 15 ,,
5. Open wiring ,, 8 to 12 ,,

It is to be particularly noted that the rates quoted above are only approximate and the actual charges depend on the distance between points. A 'point' means any outlet for either a fan or light, the cost of wiring per point mentioned above includes the cost of plain lamp holders, shades, metal filament lamps and control.

APPENDIX II.

INFORMATION REGARDING WIRING FOR MOTORS.

Supply at medium or high pressure:—Where energy is to be used at medium or high pressure, notice shall be given to the Superintendent, Quilon Electric Supply and the supply shall not be commenced or continued until or unless the following provisions have been or are complied with namely:—

(*a*) All live parts of apparatus shall unless accessible only to and under the control of, an authorised person be protected by mechanically strong metal casing or metallic covering securely fastened throughout;

(*b*) Suitable linked switches, of requisite capacity to carry and break the current shall be inserted in each conductor near the point or origin in the consumer's premises.

(*c*) Every conductor, unless only accessible to an authorised person, shall be as far as is practicable completely enclosed in a mechanically strong metal casing or metallic covering securely fastened throughout or fixed in such other manner as may be approved in writing by the Superintendent, Quilon Electric Supply.

(*d*) The supply to every apparatus shall be efficiently controlled by suitable linked switches of requisite capacity to carry and break the current in each conductor placed near the apparatus in such a position as to be readily handled by the operator so that by their means all pressure can be cut off from the apparatus concerned and from any device in connection therewith.

(*e*) The word "Caution" in English ([illegible]) in Malayalam shall be affixed in a conspicuous position near every motor and every controlling or regulating apparatus in connection with the same.

INTRODUCTION OF MULTI-WIRE SYSTEM TO BUILDING.

Where the Conductors of a multi-system between any of which there is medium or high pressure are brought into a building for utilisation at low pressure, the supply shall be delivered to two or more pairs terminals and

the wiring from those terminals shall be kept separate and distinct. If in any such case, two or more switches, terminals or cut outs between any of which there is a difference of pressure exceeding 250 volts are fitted within reach of one another all their live parts shall be accessible only to authorised persons.

APPENDIX III.

TARIFF REGARDING SERVICE CONNECTIONS.

1. All service connections within 50 feet of the nearest supply post, will be made by the Department free of cost to the consumer but the consumer has to pay for the post, stays and struts which may be found necessary to give him service connection even if such a post is within 50 feet of the concession allowed.

2. Where the distance exceeds 50 feet, the following charges will be levied:—

All service connections will be charged for the cost of the materials used, the labour engaged, together with 20 per cent departmental charges on them. The Department is at liberty to take the service lines from the meter or cut out of a consumer to give service connection to another consumer, in which case the second consumer will not have the benefit of the 50 feet concession, and will have to pay for the entire length of service from the cut out of the first consumer at the rates specified above.

3. For service requiring cables the charges will be the actual cost and labour plus 20 per cent departmental charges as above.

4. Any service connection requiring an additional post will be charged in addition to the cost of the post, stays or struts wherever necessary.

These rates are subject to revision from time to time and such revisions will be notified in the Government Gazette.

APPENDIX IV.

TARIFF OF CHARGES FOR THE SUPPLY OF ENERGY.

1. For lights and fans:—Six annas a unit subject to a minimum of Bh. Rs. 1-8-0 a month for every consumer per meter installed.

APPENDIX VIII.

TRAVANCORE ELECTRICAL DEPARTMENT.

QUILON ELECTRIC SUPPLY.

Agreement made this day of One Thousand nine hundred and between the Superintendent, Quilon Electric supply on

behalf of the Government of His Highness the Maharaja (hereinafter referred to as the "Government") of the one part and.............................. (hereinafter referred to as the "Consumer") on the other part, whereby it is agreed as follows:

1. The Government shall furnish to the Consumer and the Consumer shall accept at the premises mentioned in the Schedule hereto on and from the date on which the said premises shall be connected to the Government's distributing main a constant supply of electric energy for the purpose and up to the maximum specified in the said Schedule but the Government will not be responsible for any interruption, or diminution of supply due to occurrence beyond their control.

2. The Consumer shall pay to the Government on demand the cost at the Government tariff rates in force of so much of any service line as may be laid down or placed for the purpose of the supply upon the said premises, and of so much of any service line as it may be necessary for the said purpose to lay down or place beyond 50 ft. from the Government's distributing main although not on the said premises. The Department shall be at liberty to take the service line from the Meter or cut out of the consumer to give service connections to a neighbouring consumer.

3. The supply shall be registered by a meter or meters in or upon the said premises to be provided, fixed and kept in proper order by the Government.

4. The consumer should pay to Government for all electric energy so supplied and registered as aforesaid at the rates for the time being in force and shall in the case of prepayment meters pay a hire at the rates stipulated in clause 5 (3) below.

5. Readings of meter or meters will be taken by the officers of the Government appointed for the purpose once in each month or at such intervals or time as they shall think expedient and necessary and the Government's Meter-readers shall have access to the Consumer's premises at all reasonable times for the purpose of taking such readings. The readings of meter shall be entered by the Meter-readers in a book attached to such meter and open to the inspection of the consumer. Payment for the energy supplied shall be made by the consumer according to the readings of such meter within a week after such readings are entered in the book.

(i) Prepayment meters will be installed at the discretion of the Superintendent, Quilon Electric Supply.

(ii) Consumers who are in default and who are irregular in payments will be notified to deposit an amount equivalent to the probable consumption for six months and if the deposit is not made within the time specified prepayment meters will be installed at the said consumers premises and the outstanding dues shall either be adjusted from the deposit or collected by other means.

(iii) Consumers in whose premises prepayment meters are installed will have to deposit an amount of Bh. Rs. 5. Such consumers will have to pay a meter hire of 6 annas per mensem (Bh. Rs. 4 1/2 per annum) which will be adjusted from the deposit referred to above. The amounts so deducted from the deposit will be recouped every half year.

(iv) Consumers shall be responsible for the safety of the prepayment meters and of the validity of the coins inserted.

(v) The Meter Inspector or an authorised officer of the Department will open the prepayment meter in the presence of the consumer or his representative and collect the coins.

(vi) The consumer shall be responsible for the quality of the coins inserted; bent or spurious coins should not be used and any consumer inserting bad coins is liable to be dealt with under law.

6. If the consumer shall at any time consider that any meter is not in proper order for correctly registering the value of the supply, he may apply to the Superintendent, Quilon Electric Supply, for a special test with a remittance of Bh. Rs. 5. On receipt of the application and test fee, the Superintendent, Quilon Electric Supply shall have the meter specially tested by the Department; and where the meter records more than 3 per cent. up or down of the correct reading, the consumer's bill shall be adjusted in accordance with the results of the test and the test fee shall be returned to the consumer. Where however, the meter in dispute is found to be within 3 per cent. up or down of the correct reading, the previous bill shall be confirmed and the test fee shall be forfeited to Government.

7. The consumer shall deposit with the Superintendent, Quilon Electric supply the sum of British Rupees ( ) as security, for the purpose next hereinafter mentioned and shall on requisition from the Superintendent, Quilon Electric Supply from time to time renew or replenish such security in the event of the same becoming exhausted or insufficient. The Superintendent, Quilon Electric Supply shall be at liberty at any time and from time to time to appropriate and apply any security so deposited as aforesaid in or towards payment or satisfaction of all or any moneys which shall become due or owing by the consumer to the Government in respect of the supply of energy or otherwise under this agreement. All dues that may become payable by the consumer as per this agreement by reason of breach or otherwise are recoverable under the Revenue Recovery Regulation for the time being in force as if they are arrears of public revenue due on land. But the provisions in this clause contained shall not prejudice any other remedy to which the Government may be entitled for the recovery of such moneys.

8. The consumer shall not be at liberty, save with the consent of the Superintendent, Quilon Electric Supply to determine this agreement before the expiration of twelve calendar months from the date of commencement of the supply. The consumer may determine this agreement at any time after the said period on giving to the Superintendent, Quilon Electric Supply one clear month's notice in writing. If within twelve months from the date of commencement of supply, the consumer should, without giving previous intimation in writing to the Superintendent, Quilon Electric Supply, cease to consume energy under the agreement continuously for .... month, his agreement shall be determined and the deposit made by the consumer shall be forfeited.

Provided always that the consumer may at any time with the previous consent of the Superintendent, Quilon Electric Supply, transfer this agreement to any other person and upon subscription by such transferee of these presents this Agreement shall become binding on the transferee and the Superintendent, Quilon Electric Supply and take effect in all respects as if the transferee had originally been party hereto in place of the consumer, who shall thenceforth be discharged from all liability under or in respect hereof.

9. When any difference or dispute arises as to the amount of energy consumed, as to the cost of any service line, as to the improper use of energy, or as to any alleged defect in wiring, fittings, works or apparatus, the matter shall be referred to the Electrical Engineer to Government whose decision shall be final.

THE SCHEDULE ABOVE REFERRED TO

1. Description of the premises at which supply is to be given.
2. Purpose for which the supply is to be given.
3. Maximum electrical power required by the consumer.

As witness the hands of the parties the day and year first above written.
